**Valencia Gardens' Community Room - 15th & Valencia**  
*San Francisco's Award Winning Affordable Housing Project*

For 40 years since our establishment in 1971, Mission Housing Development Corporation has worked to create and preserve quality affordable housing. We have pioneered innovative, award winning housing developments that helped define the personality of the Mission District.

Today MHDC serves almost 3,000 residents in more than 1,000 units. MHDC is one of the largest non-profit housing organizations in San Francisco, with 31 buildings that it either owns or manages. We are successful and growing! 350 additional rental units are being developed and six more sites are being considered to build homeownership units.
